I'm using Firebase for my database, and the search bar should just search for text, but as I'm new to this, I'm having a bit of trouble. This is my code: import React from'react'; import { useRef, useState } from'react'; import firebase from '../firebase'; import './style.css'; export default function SearchBar() { const [items, setItems] = useState([]); const itemsRef = useRef(null); const [value, setValue] = useState(""); const searchBar = () => { const filteredItems = itemsRef.current.filter(item => item.value.toLowerCase().includes(value.toLowerCase())); 82157476af
