Web TV Easy Screenshots: (click images to enlarge) Web TV Easy We're all well aware of the fact that there are plenty of apps out there that promise to help you watch online television, but Web TV Easy wants to offer a much more captivating experience. With an eye-candy look that groups the essential options in just one window. Web TV Easy lists all TV channels by country, so it's easy to find the one you like. Truth is, a search box could help a lot, but the app also provides access to a few categories, such as sport, entertainment, music, movies, children and news. There's a favorite tool too, so you can save your favorite TV channels for one-click access at any given time. Simply select the station you like and hit the "Insert" button in the main window to add it to favorites. There are no other settings to play with so everything's pretty basic, but this also means that the lack of a help section shouldn't affect you too much. On the other hand, the same problem that affects so many similar products exists here too. Some of the included channels
